Panasonic®

Important Information

When using the KX-T7600 series, keep the following conditions in mind.

• If there is any problem, unplug the extension line and connect a known working phone. If the known working phone operates properly, have the defective phone repaired by a specified Panasonic Factory Servicenter. If the known working phone does not operate properly, check the KX-TDA series Business Telephone Systems and the internal extension wiring.

• Keep the unit away from heating appliances and electrical noise generating devices such as fluorescent lamps, motors and televisions. These noise sources can interfere with the performance of the unit.

• This unit should be kept free of dust, moisture, high temperature (more than 40 ^{o}C [104 ^{o}F]) and vibration, and should not be exposed to direct sunlight.

• Do not use benzine, thinner, or the like, or any abrasive powder to clean the cabinet. Wipe it with a soft cloth.

• Do not use any handset other than a Panasonic handset.

• Do not disassemble this product. Dangerous electrical shock could result. The unit must only be disassembled and repaired by qualified service technicians.

• When a failure occurs, which exposes any internal parts, disconnect the telephone line cord immediately and return this unit to servicenter.

• Never attempt to insert wires, pins, etc., into the vents or other holes of this unit.

WARNING:

TO PREVENT THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

THIS HANDSET EARPIECE IS MAGNETIZED AND MAY RETAIN SMALL FERROUS OBJECTS.

IMPORTANT NOTICE:

Under power failure conditions, this telephone may not operate. Please ensure that a separate telephone, not dependent on local power, is available for use in an emergency.

Thank you for purchasing the Panasonic KX-T7600 series, Digital Proprietary Telephone. Please read this manual carefully before using this product and save this manual for future use.

This manual is designed to be used with your Digital Proprietary Telephone and a Panasonic KX-TDA series Business Telephone System.

Note: In this manual, the suffix of each model number is omitted.

Table of Contents

Before Initial Use

When you ship the product

Carefully pack and send it prepaid, adequately insured and preferably in the original carton.
Attach a postage-paid letter, detailing the symptom to the outside of the carton.
DO NOT send the product to the Executive or Regional Sales offices. They are NOT
equipped to make repairs.

Product service

Panasonic Factory Servicenters for this product are listed in the servicenter directory.
Consult your authorized Panasonic dealer for detailed instructions.

Accessories (included) For extra orders, call toll-free: 1-800-332-5368.

PROGRAM

Volume Key

Location of Controls

PAUSE:
Used to insert a pause when storing a telephone number. This button also functions as the PROGRAM button when there is no PROGRAM button on your telephone.

FWD/DND (Call Forwarding/Do Not Disturb):
Used to perform Call Forwarding or Do Not Disturb.

CONF (Conference):
Used to establish a multiple-party conversation.

INTERCOM:
Used to make or receive intercom calls.

AUTO ANS (Auto Answer)/ MUTE:
Used to receive an incoming call in hands-free mode or mute the microphone/handset during a conversation.

AUTO DIAL/STORE:
Used for System/Personal Speed Dialing or storing program changes.

TRANSFER:
Used to transfer a call to another party.

REDIAL:
Used to redial the last dialed number.

MESSAGE:
Used to leave a message waiting indication or call back the party who left the message waiting indication.

FLASH/RECALL:
Used to disconnect the current call and make another call without hanging up.

HOLD:
Used to place a call on hold.

SP-PHONE (Speakerphone):
Used for the hands-free operation.

Navigator Key (KX-T7630/7633/ 7636):
Used to adjust the volume and the display contrast or select desired items.

Volume Key (KX-T7625):
Used to adjust the volume.

CANCEL (KX-T7630/7633/7636):
Used to cancel the selected item.

PROGRAM (KX-T7625):
Used to enter and exit the personal programming mode.

ENTER (KX-T7630/7633/7636):
Used to confirm the selected item.

CO:
Used to make or receive an outside call. Pressing this button seizes an idle outside line automatically. (Button assignment is required.)
Also used as feature buttons. (Button assignment is required.)

Message/Ringer Lamp:
When you receive an intercom call, the lamp flashes green, and on an outside call, the lamp flashes red. When someone has left you a message, the lamp stays on red.

Soft Buttons (KX-T7630/7633/ 7636):
Used to select the item displayed on the bottom line on the display.

The telephone line cord (included)

CAUTION
Ensure the cords are inserted in the grooves to prevent damage to the connector.

→ Connect to a KX-TDA series Business Telephone System (*TO MAIN UNIT / PABX*).

→ Connect to a single line telephone for XDP or parallel connections (*TO TEL*).

CAUTION
Ensure the handset cord is inserted in the hook to prevent damage to the connector.

< Back view>

• Consult your dealer for more details about XDP.

Tilt Angle Adjustment

The tilt angle of the operation board can be adjusted to one of four angles.

To lift: Lift up the operation board to the desired step-angle (1 →2 → 3 →4).

To set down: Lift up the operation board to the highest angle and then press down to step-angle 1. **Be careful not to get your fingers caught between the base and the operation board.**

• Pull down the handset hook until it locks to prevent the handset from slipping down from the operation board when at step-angle 4.

Wall Mounting

1 Set the operation board to step-angle 1.

2 Connect the telephone line cord, and set the lock plate on the wall mounting adaptor. While the lock plate is in the up position, perform ① and then ② to attach the wall mounting adaptor to the telephone.

3 Slide the lock plate down until it clicks.

4 Mount the unit on the wall.

100 mm (3-15/16 in) 83 mm (3-1/4 in)

Screw

5 Pull down the handset hook until it locks, so the tab holds the handset. **To temporarily place the handset down during a conversation,** hook it over the top edge of the phone as shown.

To remove the mounting wall adaptor,

slide the lock plate (①) into the up position, then push ② and remove the wall mounting adaptor from the telephone.

To prevent damage to the telephone, be sure to unplug the extension line before you set up or remove the USB Module or the Add-on Key Module.

◆◆ *KX-T7601 (For KX-T7633/7636) includes USB cable*

The USB Module can be connected between the digital proprietary telephone and the personal computer through USB interface to implement personal CTI (Computer Telephony Integration).

1 Remove the connector cover using a screwdriver.

2 Insert the flat cable into the connector.

3 Couple both hinges and slide in the unit.

4 Push down the cover until it locks, and connect the USB cable to USB port.

Connect to PC ◀

* Please use a USB cable shorter than 3 m (3.28 yards).

◆◆ *KX-T7603 (For KX-T7633/7636)*

The Add-on Key Module has 12 CO buttons. These buttons are used to seize an outside line, make a call using One-touch Dialing, or access certain features.

<with a KX-T7636>

1 Open the cover.

2 Attach the KX-T7603 to your telephone with screws.

3 Insert the flat cable into the connector.

4 Close the cover.
